Shermco Industries receives Electrical Industry Award

DALLAS – Shermco Industries, a leading provider of rotating apparatus and electrical power system testing, commissioning, repair, maintenance and training, has received a bronze Training Partner Award for 2009/10 from the National Joint Apprenticeship and Training Committee for the Electrical Industry.

Awards are based on the amount of direct participation with the NJATC over the prior twelve months. This includes areas such as: curriculum development and enhancement, technical support, webinar presentations, train-the-trainer classes, NJATC staff assistance in specialized training presentations, committee, trade show and NJATC Summit participation.

“We are honored to receive this award. We are always looking for ways to advance the electrical industry and electrical safety through involvement, clear standards and better training,” said Ron Widup, Shermco executive vice president.

ABOUT SHERMCO

[Shermco Industries](http://www.shermco.com) is a provider of safe, reliable testing, repair, professional training, maintenance and analysis of rotating machines and electrical power distribution systems and related equipment for the light, medium, and heavy industrial base nationwide. Founded in 1974 in Dallas, the company is comprised of two strategic business units; Machine Services Division and an Engineering Services Division. With a corporate location in Irving, Texas, a sales office in Brussels and service centers in Austin and Tulsa, Shermco Industries has over 250 full-time employees and exceeds \$65 million in annual revenues. The company is a member in good standing with the American Wind Energy Association, European Wind Energy Association, Global Wind Energy Council, Electrical Apparatus Service Association and the International Electrical Testing Association.
