Shermco's Mike Moore to present at AWEA Wind Project & Reliability Workshop

Talk to highlight importance of maintenance planning

SAN DIEGO – Mike Moore, vice president of Shermco Industries, is slated to present “Balance of Plant – Maintenance Planning” at the AWEA Wind Project & Reliability Workshop in San Diego, Calif. this week. The workshop takes place Jan. 12-13 at the Hilton San Diego Bayfront.

Moore's presentation, scheduled Thursday, Jan. 13 from 8:30 - 10 a.m., will examine the importance and key components of an electrical maintenance program that will ensure the successful operation and reliability of wind projects.

“Shermco works with many of the wind energy industry leaders that are a part of AWEA, and we are always proud to sponsor and be a part of this organization's educational events in which best practices and processes are taught for long-term profitable operation,” said Moore.

For more information on the workshop, visit awea.org.

ABOUT SHERMCO

[Shermco Industries](http://www.shermco.com) is a provider of safe, reliable testing, repair, professional training, maintenance and analysis of rotating apparatus and electrical power distribution systems and related equipment for the light, medium, and heavy industrial base nationwide. Founded in 1974 in Dallas, the company is comprised of two strategic business units; Machine Services Division and an Engineering Services Division. With a corporate location in Irving, Texas, a sales office in Brussels and service centers in Austin, Tulsa and Sweetwater, Shermco Industries has over 250 full-time employees. The company is a member in good standing with the Electrical Apparatus Service Association, American Wind Energy Association and the International Electrical Testing Association.
