

**FOR IMMEDIATE RELEASE**

November 30, 2009

**Shermco appointed exclusive service center for Spencer Turbine in Southwestern U.S.**

DALLAS – Shermco Industries, a leading provider of rotating apparatus and electrical power system testing, commissioning, repair, maintenance and training has been appointed by the Spencer Turbine Company as its exclusive Authorized Service Center for the Southwestern U.S.

The agreement gives Shermco a five-state service territory which includes Texas, Oklahoma, Louisiana, New Mexico and Arkansas. Shermco is authorized to provide repair and service for Spencer multistage centrifugal fabricated blowers (except UL-Listed hermetic gas boosters), Power Mizer® multistage cast centrifugal blowers, Industravac® self-contained vacuum systems, separators and dust collectors, Vortex® regenerative blowers, electrical controls and control systems.

Shermco will be able to perform all repair, maintenance and associated service for these products, including start-up, warranty and non-warranty repair work, and will use only Spencer-manufactured or Spencer-approved replacement parts to ensure customers receive parts that meet Spencer quality standards.

“Spencer Turbine is a widely respected leader in engineered blowers and vacuum systems and have been in business since 1892,” said Scott Meador, Shermco vice president. “We are proud to be chosen as their service center for the Southwest.”

**ABOUT SHERMCO**

[Shermco Industries](http://www.shermco.com) is a provider of safe, reliable testing, repair, professional training, maintenance and analysis of rotating machines and electrical power distribution systems and related equipment for the light, medium, and heavy industrial base nationwide. Founded in 1974 in Dallas, the company is comprised of two strategic business units; Machine Services Division and an Engineering Services Division. With a corporate location in Irving, Texas, a sales office in Brussels and service centers in Austin and Tulsa, Shermco Industries has over 250 full-time employees and exceeds \$65 million in annual revenues. The company is a member in good standing with the American Wind Energy Association, European Wind Energy Association, Global Wind Energy Council, Electrical Apparatus Service Association and the International Electrical Testing Association.
