Shermco Industries Wins Electrical Maintenance Contract for Offshore Drilling Platform

DALLAS – Shermco Industries, a leader in electrical maintenance for light, medium and heavy industrial trade, is currently performing electrical maintenance and testing work for an offshore oil platform off the coast of Equatorial Guinea.

Shermco won the Fortune 500 contract in March for a scope of work which includes general preventative maintenance for the electrical distribution systems of the platform.

“Electrical reliability is very important for the ensured safety, productivity and profitability of offshore oil platforms,” said Ron Widup, president of Shermco. “This is a contract for which we are well suited, and we really enjoy assisting the oil and petrochemical industry, doing so safely and reliably.”

ABOUT SHERMCO

[Shermco Industries](http://www.shermco.com) is a provider of safe, reliable testing, repair, professional training, maintenance and analysis of rotating apparatus and electrical power distribution systems and related equipment for the light, medium, and heavy industrial base nationwide. Founded in 1974 in Dallas, the company is comprised of two strategic business units; the Machine Services Division and the Engineering Services Division. With a corporate location in Irving, Texas, a sales office in Brussels and service centers in Austin, Cedar Rapids, Des Moines, Houston, Sweetwater, and Tulsa, Shermco Industries has over 375 full-time employees. The company is a member in good standing with the Electrical Apparatus Service Association, American Wind Energy Association, Professional Electrical Apparatus Recyclers League, and the InterNational Electrical Testing Association.
