Shermco announces 2012 Terawatt Sponsorship of the American Wind Energy Association

DALLAS – Shermco Industries, an industry leader in electrical power system maintenance, repair, testing and training, announced their 2012 Terawatt Sponsorship of the American Wind Energy Association, a national organization that helps promote wind power growth through advocacy, communication and education.

“The expansion of wind energy is crucial to America’s future as a clean, renewable energy consumer,” said Kevin Alewine, director of renewable energy services for Shermco Industries. “AWEA is influential in advancing our industry’s efforts to provide wind energy to more markets throughout America. In addition to Shermco’s commitment to wind through avenues such as our terawatt sponsorship of AWEA, it also assists AWEA in their efforts to expand wind energy in our nation.”

As a Terawatt Sponsor, Shermco supports AWEA workshops, conferences and exhibitions across North America that educate corporations and professionals associated with wind energy expansion about significant environmental, economic and energy issues.

For more information about the AWEA or the effort to expand clean, renewable wind energy in America, visit www.awea.org.

ABOUT SHERMCO

[Shermco Industries](http://www.shermco.com) is a provider of safe, reliable testing, repair, professional training, electrical outage planning, maintenance and analysis of rotating apparatus and electrical power distribution systems and related equipment for the light, medium, and heavy industrial base nationwide. Founded in 1974 in Dallas, the company is comprised of two strategic business units; the Machine Services Division and the Engineering Services Division. With a corporate location in Irving, Texas, a sales office in Brussels and service centers in Austin, Cedar Rapids, Des Moines, Houston, Sweetwater, and Tulsa, Shermco Industries has over 400 full-time employees. The company is a member in good standing with the Electrical Apparatus Service Association, American Wind Energy Association, Professional Electrical Apparatus Recyclers League, and the InterNational Electrical Testing Association. For more information about Shermco Industries, visit www.shermco.com.
