### **Shermco Industries a Best Places to Work finalist for fifth year**

DALLAS – Shermco Industries remains on the list of Dallas’ finest companies according to the Dallas Business Journal, who has recognized Shermco as a mid-sized company finalist for the publication’s 2011 Best Places to Work for the fifth year.

Shermco earned this distinction by being one of the top-scoring businesses in an employee survey administered by the Dallas Business Journal and the independent research firm, Quantum Market Research. Over 400 companies entered into the survey process, but only 18 mid-sized companies were chosen as finalists. A mid-sized company is defined as one with 100 to 499 local employees.

“Shermco has experienced tremendous growth and we are grateful to have dedicated employees, who take pride in their work and our company,” said Ron Widup, president of Shermco Industries, “We continue to expand, with over 50 new job openings posted. We are committed to our employees and appreciate their commitment to us.”

Shermco and other finalists and the top companies in each category will be recognized at a luncheon on Sept. 22 from 11 a.m. to 1:30 p.m. at the Hyatt Regency Dallas and in the Dallas Business Journal Best Places to Work Special Publication on Sept. 23.

#### **ABOUT SHERMCO**

[Shermco Industries](http://www.shermco.com) is a provider of safe, reliable testing, repair, professional training, electrical outage planning, maintenance and analysis of rotating apparatus and electrical power distribution systems and related equipment for the light, medium, and heavy industrial base nationwide. Founded in 1974 in Dallas, the company is comprised of two strategic business units; the Machine Services Division and the Engineering Services Division. With a corporate location in Irving, Texas, a sales office in Brussels and service centers in Austin, Cedar Rapids, Des Moines, Houston, Sweetwater, and Tulsa, Shermco Industries has over 375 full-time employees. The company is a member in good standing with the Electrical Apparatus Service Association, American Wind Energy Association, Professional Electrical Apparatus Recyclers League, and the InterNational Electrical Testing Association.
