Shermco announces 2010 Terawatt Sponsorship of the American Wind Energy Association

DALLAS – Shermco Industries, an industry leader in electrical power system maintenance, repair, testing and training, announced today their 2010 Terawatt Sponsorship of the American Wind Energy Association, which is a national organization that helps promote wind power growth through advocacy, communication, and education.

“The expansion of wind energy is vital to America’s future as a clean, renewable energy consumer,” said Kevin Alewine, director of renewable energy services for Shermco. “AWEA is very influential in advancing our industry’s efforts to provide wind energy to more markets throughout America.”

As a Terawatt Sponsor, Shermco supports AWEA workshops, conferences and exhibitions across America that educate corporations and professionals associated with wind energy expansion about significant environmental, economic and energy issues.

For more information about the AWEA or the effort to expand clean, renewable wind energy in America, go to www.awea.org.

ABOUT SHERMCO

[Shermco Industries](http://www.shermco.com) is a provider of safe, reliable testing, repair, professional training, maintenance and analysis of rotating machines and electrical power distribution systems and related equipment for the light, medium, and heavy industrial base nationwide. Founded in 1974 in Dallas, the company is comprised of two strategic business units; Machine Services Division and an Engineering Services Division. With a corporate location in Irving, Texas, a sales office in Brussels and service centers in Austin, Tulsa and Sweetwater, Shermco Industries has over 250 full-time employees and exceeds \$65 million in annual revenues. The company is a member in good standing with the Electrical Apparatus Service Association and the International Electrical Testing Association.
