**Shermco Announces August Webinar: “Introduction to Electric Motor Failure Modes: Troubleshooting and Maintenance Recommendations”**

DALLAS – Shermco Industries will host a webinar on Wednesday, Aug. 19 at 10 a.m. CDT entitled “Introduction to Electric Motor Failure Modes: Troubleshooting and Maintenance Recommendations.”

The webinar will cover how electric motors fail, how to perform basic tests to determine the condition of a motor and recommended maintenance procedures for avoiding failures and extending motor life. Reliability and maintenance personnel will benefit from the webinar led by Shermco’s motor technologies specialist Calvin Earp.

“Electric motors are often out of mind until they quit working; then there is nothing more important,” said Earp. “This is a highly requested talk on how to ensure that they won’t fail without some kind of heads-up.”
