### **Shermco Industries' CEO Ron Widup to Chair PowerTest**

IRVING – Shermco Industries' CEO Ron Widup, currently the president of the InterNational Electrical Testing Association, has been named the chair of the upcoming PowerTest 2016.

The annual conference is the premier electrical maintenance and reliability event in the nation and will be held this year in Fort Worth, Texas, March 14 – 18. PowerTest's commitment is to build a network of knowledgeable professionals in the electrical power industry, working together to uphold the NETA/ANSI testing and commissioning standards and improve the reliability and safety of electrical power systems, electrical infrastructure, and rotating machinery.

“We believe in NETA's mission and the superior knowledge base and networking opportunities they bring to each and every PowerTest event,” said Widup. “I'm proud to work with the organization and chair this year's conference. We are trending attendance numbers that will be the largest on record and it will be a fantastic event. And with it located this year in our great state of Texas it is an event which should not be missed.”

Shermco Industries has long been a sponsor of PowerTest, and this year they will again be a Premium Sponsor.

For more information on the conference or additional information on the presentations, visit <http://www.powertest.org/conference/conference-overview>.

#### **ABOUT SHERMCO**

Shermco Industries is the leading independent provider of safe and reliable acceptance testing, commissioning, maintenance, repair and remanufacturing of electrical equipment and power distribution systems. With service centers located throughout North America, certified technicians and engineers focus on servicing both scheduled and unexpected projects for large commercial, industrial and utility customers. Shermco, a leader in electrical safety and technical training, focuses on industrial electrical contracting, utility, wind turbine maintenance and disaster recovery services. Shermco Industries is a member in good standing with the Electrical Apparatus Service Association, American Wind Energy Association, Professional Electrical Apparatus Recyclers League, and the InterNational Electrical Testing Association.
