## **Shermco Industries Opens New Training Center in St. Paul, MN**

**ST. PAUL, MN:** Shermco Industries is expanding their electrical safety and technical training capabilities to their location in St. Paul, MN. As a leader in electrical testing, maintenance and repair services, Shermco established their training department to offer this knowledge to customers and other electrical firms. This expanded offering is especially designed to service those clients located in Minnesota, North Dakota, South Dakota and Wisconsin, but the classes offered will be open to clients from across the U.S.

Examples of classes offered are: Electrical Safety for Qualified Electrical Worker (fully complies with the requirements of the NFPA 70E Standard), Electrical Safety for Utilities, Troubleshooting and Electrical Print Reading; and The National Electric Code for Commercial and Industrial Locations.

“We are excited about having this new location to make these important classes more readily available to our students in the Upper Midwest,” said Jim White, director of training for Shermco Industries.
