Shermco Executives Contribute Expertise to PowerTest Conference

Irving, TX: Several Shermco Industries executives will be providing their expertise in electrical testing and safety at the 2017 PowerTest Conference held from February 27 to March 3, 2017 in Anaheim, California. The event is sponsored by the InterNational Electrical Testing Association. PowerTest is the industry’s premier electrical power systems acceptance, maintenance, and safety conference. The five-day event offers over 47 sessions on electrical power system training and opportunities for networking.

Ron Widup, CEO of Shermco Industries, is the conference chair of the annual event as well as the president of the trade association. “We’re going to see the latest trends in technology and have many opportunities to learn from the technical experts and industry leaders,” said Widup.

Jim White, director of training for Shermco, is a widely known thought leader in electrical safety. He will be presenting on several topics including guarded and unguarded equipment as well as chairing a panel addressing issues concerning electrical safety. Jim will also present a 4-hour seminar on changes to the NFPA 70E Standard for Electrical Safety in the Workplace, 2018 edition.

Rod Hageman, Shermco consultant, will lead an industry panel on protective relays.

Tom Sandri, Shermco’s senior technical instructor, will present on substation battery maintenance and testing. Additionally, Tom will lead three 4-hour seminars titled “The Techniques and Philosophies of Testing Electrical Insulation”, “Exploring Ohmic Trending of Battery Systems and Battery Capacity Testing” and “What Does a Partial Discharge Test Tell Me?”
