## **Shermco Industries Names Lyndall Strunck as Director of National Accounts**

**IRVING, TEXAS, September 1, 2016** - Shermco Industries has promoted Lyndall Strunck to Director of National Accounts, reporting the Vice-President of National Accounts, Business Development and Marketing. He will be responsible for managing a team of National Account Managers responsible for driving business development and contract management for key national accounts. Mr. Strunck has previously served in various management positions, including as a Sr. Account Manager in the Texas region and Director of Oil and Gas for Shermco.

“Lyndall has played an integral part in the development of Shermco’s national account team. I look forward to his continued success in expanding our partnerships with targeted national account customers,” said Jason Greer, Vice President.

Strunck will continue to be based in the Irving, Texas corporate office. He will be responsible for developing master service agreements and major contracts for Shermco’s high voltage electrical engineering, testing, reliability and repair services as well as rotating machinery repair and remanufacturing. Shermco offers these services at 19 offices located throughout the Central U.S. and Western Canada.

Lyndall Strunck is a graduate of Tarleton State University

### **ABOUT SHERMCO**

Shermco Industries is the leading independent provider of safe and reliable acceptance testing, commissioning, maintenance, repair and remanufacturing of electrical equipment and power distribution systems. With service centers located throughout North America, certified technicians and engineers focus on servicing both scheduled and unexpected projects for large commercial, industrial and utility customers. Shermco, a leader in electrical safety and technical training, focuses on industrial electrical contracting, utility, wind turbine maintenance and disaster recovery services. Shermco Industries is a member in good standing with the Electrical Apparatus Service Association, American Wind Energy Association, Professional Electrical Apparatus Recyclers League, and the InterNational Electrical Testing Association.
